

BUS ROUTES

School bus routes will be planned to consider:

1. Student population density
2. Bus capacity
3. Traffic routes, including hazardous traffic areas
4. Economy of operation
5. Location of authorized bus stops
6. Condition of roads and bridges
7. Student travel time
8. Transportation of ineligible students
9. Transportation of eligible students

A schedule of bus routes will be published and distributed to all schools. The schools may distribute copies of the routes to students and parents no later than the first week of instruction of every school year. Bus schedule routes change throughout the school year. The school administrator or designee will promptly inform students and parents of subsequent schedule changes.

USE OF PRIVATE VEHICLE

Use of private vehicles to transport students is prohibited. In emergency situations and with the approval of the campus administration, a district vehicle may be used to transport a student. Operation of a private motor vehicle by a district employee to transport a student will not be covered by the district's insurance; the liability falls on the insurance coverage of the employee.
